

AGE OF STEAM

SOUTHERN CHINA

SETUP

Place discs on the administration boards as normal, then each player takes 4 ownership discs, returning the rest to the box.

Set aside ownership discs from an unused player color to be used as *tokens of support*.

Place a *token of support* on the last two spaces of the round track.

Place 3 random goods in Hong Kong and Changsha.

Place 2 random goods in each other city.

SELECT ACTIONS

Engineer & Locomotive; Not used.

Gain Support; Take a *token of support* from the supply.

BUILD TRACK

Plains \$2, Rivers \$3, Mountains \$4

Extra cost hexes; As marked, must have a simple track tile built before a complex track tile may be built there. Replacement costs are as normal.

Interurban & Ferry; \$8, limit 1 per player per round, count as a track build and 1 VP.

Unfinished Track; Players do **not** gain *tokens of support* for removing ownership markers from unfinished track and it is **not** considered nationalized track. A player may **not** have more than 1 unfinished track at a time.

MOVE GOODS

Hong Kong accepts goods of *any* color. Deliveries to Hong Kong may **not** use Nationalized Track as any of the links. Hong Kong may **not** accept any deliveries in the last two rounds.

END GAME SCORING

As normal, but players also receive 3 VP for each unused *token of support*.
