TOKENS OF SUPPORT

Immediately available for use when gained.

Worth 3 VP if unused.

A player may return 1 token to the supply to do one of the following, or 2 tokens to do both.

- 1.) Build up to 4 track during the build track phase.
- 2.) Temporarily add 1 to their locomotive link level for both turns in the move goods phase.

NATIONALIZED TRACK

Created when a player doesn't have an available ownership marker for a newly built link.

They must remove their ownership marker from an existing link to place on the newly built or completed link.

Player gains 1 *token of support* from the supply.

Player gains \$1 per track segment as compensation.

May be used by any player.

Does **not** provide income during move goods phase.

Does **not** provide VP during end game scoring.

A player may **not** nationalize a link on the same turn it was built or completed.
