

GOVERNMENT CONTROL PLAYER

DEDICATED GOVERNMENT LINKS

PLACE 9 NEUTRAL OWNERSHIP MARKERS HERE

GOVERNMENT SUPPLY

SETUP

Place goods as shown on each **Station** (e.g. **Snowdon** receives 4 goods)

Place **1** good on each **New City** tile

Do **not** fill goods display

Place **9** of an unused color's ownership markers in the government supply

Place **3** of each player's ownership markers on the government track in turn order

Place **1** of each player's ownership markers near the government link track

BUILD GOVERNMENT LINK

The player who controls the government for the current round must build a neutral government link at no cost, following normal build rules plus the following

Only **1** link can be created, using a marker from the government supply

Incomplete links are **not** allowed

AUCTION

If **2** or more player's pass during the the turn order auction, those passing players will not choose a special action for the round

LOCOMOTIVE ACTION

Move up **1** space on the dedicated government links track. This is the only way to move up this track.

You must trade a move action during the move goods phase to move up the standard links track.

BUILD TRACK

All track must be contiguous

Mountain: **\$3**

Road: **\$4**

River: **\$6**

URBANIZATION

Placing a **New City** counts as **1** or your **3** track builds for the round

MOVE GOODS

Players may use government links but receive no income as part of their move

Dedicated government links allow extra movement over government links only

REPOPULATION (IMMEDIATE)

Draw 3 goods, and place onto the map

Replaces production

EXPENSES

Standard links + dedicated government + shares
= total expenses for the round

GROWTH

Skip the **Growth** Phase
